กฤษณะพากษ์ศาสตร์บำเพ็ญ สำนักงานจัดการเรียนรู้ภาษาไทยและป่า และพันธุ์พิช ได้ระบุว่า นี่คือพันธุ์ไม้หายากที่มีชื่อไทยออม

ตอกต่างกันไปตามท้องถิ่นที่พับ เช่น กระบาล

A photograph showing a close-up of a large tree trunk. The bark is rough and textured, with a mottled brown and grey color. The tree is surrounded by dense green leaves and branches, suggesting it is in a forest environment. The lighting is natural, filtering through the canopy above.

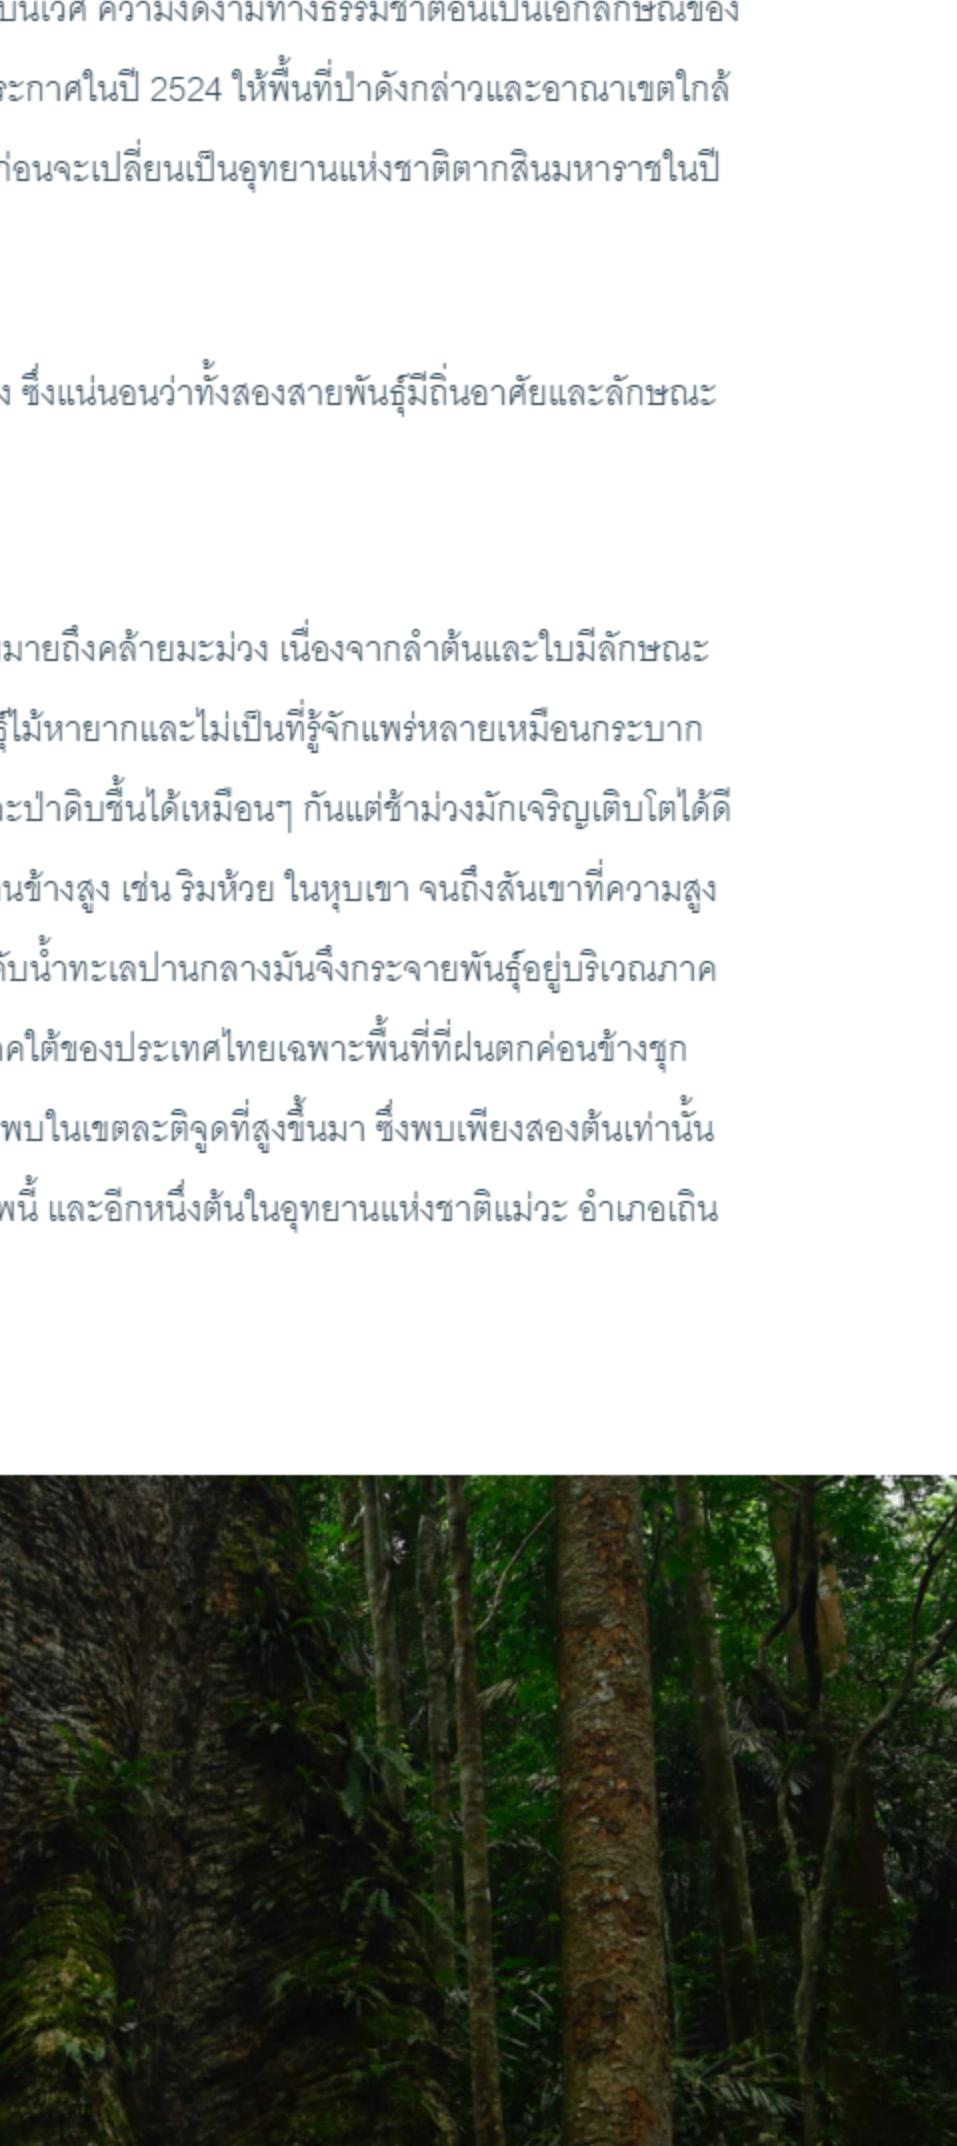

A photograph showing a close-up of a tree trunk, likely a palm, covered in thick green moss and various ferns. The trunk is textured and shows signs of age. In the background, more dense tropical vegetation and trees are visible through a slight blur.

2529 เพื่อเกิดพระเกียรติสมเด็จพระเจ้าatakaสินมหาราช

A photograph of a dense tropical forest. In the foreground, several large palm trees with prominent leaf scars on their trunks stand tall. Behind them, a variety of other tropical trees with different bark textures and green foliage create a lush, layered canopy. The lighting suggests a bright day with sunlight filtering through the leaves.

A photograph of a dense tropical forest. The scene is filled with tall, thin trees and thick undergrowth. Sunlight filters through the canopy, creating bright highlights on the leaves and trunks. The overall atmosphere is dark and lush, typical of a rainforest environment.

A close-up photograph of a dark, textured rock surface covered in bright green moss. The moss forms irregular patches and tufts, creating a rich, organic texture against the dark rock. The lighting highlights the moist, velvety appearance of the moss.

A photograph showing a close-up of a large tree trunk covered in a thick layer of green moss and lichen. The bark is dark and textured. In the background, there is a dense thicket of tropical trees and bushes, with sunlight filtering through the canopy.

A close-up photograph showing a section of a palm tree trunk with its characteristic textured bark. To the left, a cluster of palm fruits hangs down, appearing reddish-brown with some yellow at the base. The lighting is dramatic, highlighting the textures of the bark and the fruit.

A collage of three images. The top left image shows a bunch of ripe bananas hanging from a tree. The bottom left image is a wide shot of a dense tropical forest with many green trees. The right image is a close-up of a tree trunk covered in moss and lichen.

A close-up shot of two large palm tree trunks on the left, showing their textured, ribbed bark and green moss. The background is a dense, dark green tropical forest with various tree species and foliage.
